About Us

Welcome to TTB Fire and Mining Services, a leader in fire suppression and mining services solutions, specialising in Ansul fire systems and tailored fire safety services for the Northern Cape mining sector.

- **Company Background:** Established in 2017, TTB Fire is based in the Northern Cape, South Africa. Known for our expertise in Ansul fire systems, we've quickly grown to become a key player in fire protection and maintenance, expanding our capabilities to meet the industry's evolving demands.
- **Leadership:** Co-directed by Jacques Bezuidenhout and Willem van Lingen, TTB Fire combines years of technical expertise and industry experience to deliver reliable fire protection solutions. Jacques, an electrical expert, and Willem, with a strong background in fire protection, lead a team dedicated to excellence.

Vision & Mission

► Company Vision

Our vision is to be the foremost provider of innovative and reliable fire suppression and safety solutions in the mining and industrial sectors. We aspire to set the standard for excellence in fire protection, fostering safer workplaces and contributing to the sustainable growth of the mining industry in the Northern Cape and beyond.

► Company Mission

At TTB Fire and Mining Services, our mission is to deliver top-tier fire suppression solutions that not only enhance safety but also boost operational efficiency. We are dedicated to understanding and addressing the unique challenges of the mining and industrial sectors, providing bespoke services that meet and exceed your specific needs. Through continuous innovation, exceptional service, and unwavering commitment to quality, we aim to protect lives, assets, and the environment.

Our Services

1

Fire Suppression Systems

TTB Fire specializes in Ansul fire suppression systems, renowned for their reliability and effectiveness in extinguishing fires quickly. We provide comprehensive solutions for both mobile equipment and fixed installations, ensuring maximum protection in high-risk areas such as substations and conveyor systems. Our systems are designed to meet the stringent safety standards of the mining industry, offering peace of mind and robust fire protection.

2

Maintenance and Support

Our commitment to safety doesn't end with installation. We offer ongoing maintenance and support services to ensure that your fire suppression systems remain operational and effective at all times. Regular inspections, routine maintenance, and prompt repairs are part of our comprehensive service package, safeguarding your assets and personnel from potential fire hazards.

3

Certifications and Compliance

TTB Fire is fully compliant with all relevant industry standards and regulations. Our dedication to quality and safety has earned us recognition as a trusted name in fire protection. We meticulously adhere to certification requirements, ensuring that our systems not only meet but exceed the expectations of our clients. This unwavering commitment to compliance guarantees that your operations remain safe and legally protected.

4

Emergency Response Services

In the event of a fire emergency, swift and effective response is crucial. TTB Fire provides 24/7 emergency response services to address any fire incidents promptly. Our trained professionals are equipped to handle emergencies efficiently, minimizing damage and ensuring the safety of your personnel and assets.
